Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:
upon close review of the claims, the prior art, and applicant's remarks it appears that the allowance of claims 28 and 30 are appropriate.

The prior art of Helfman, appears to provide a voicemail notification and retrieval system comprising a mailbox owner initiating a voicemail status call to the system and the system transmitting a unique number associated with the number of voicemail messages stored for the mailbox owner rather than utilize a caller-ID for message status information (col. 7, line 29 – col. 8, line 53). Therefore, Helfman does not meet the requirements of the claimed invention.

Further, it would be contrary to the teaching in Helfman to modify the prior art to disclose:

transmit the at least one unique caller-ID number including a first unique caller-ID number transmitted when a new voicemail message is present for the subscriber and a second unique caller-ID number transmitted when no new voicemail message is present for the subscriber, as cited in claim 28, because Helfman clearly discloses transmitting a number indicating a number of voicemail messages stored in a particular category to the mailbox owner.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892 Form.
